

*A safe and healthy workplace not only protects workers from injury and illness, it can also **lower** injury/illness **costs**. Also reduce absenteeism and turnover, increase **productivity** and quality, and raise employee morale. In other words, safety is good for business. In addition, it avoids poor company image and lowers the potential for fines & penalties for non-compliance with regulatory agencies.*

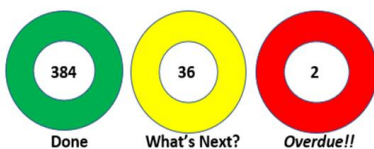

With our online Safety Compliance Management Risk Tracker® you have everything you need to manage, track and report key safety & compliance tasks including employee training, audits and inspections, corrective actions, and other corporate risk and compliance reporting needs across one or many facilities anywhere.

- Manage Safety & Compliance simply & easily from a Dashboard, drill down to what needs to be done and when (or if not complete).
- Helps implement a uniform safety compliance program among multiple facilities
- Enables required & desired safety training of workers
- Documents fully all required safety tasks & training
- Decreases administrative time to track & review safety and regulatory requirements.

A Unique Learning and Tracking System

- Learning & Task Management System (LTMS) allows all required training to be tracked by employee by job function within location
- Recurring compliance tasks (audits or reviews) can also be assigned and tracked.
- Accessible by employees, managers or supervisors anywhere an internet connection can be made, and on any type of device. You control who can access what.
- Written plans and policies, procedures, training materials, or other Corporate wide forms and documents can be shared in a Corporate “Knowledge Base” along with required documentation.
- Easily add unique in-house management task and training requirements.
- “Dashboard” showing an overview of the compliance training & task efforts that allows a live drill-down to specific areas either coming due or overdue, again by employee or location.

Drill-down Dashboard

Safety Training & Task Management System

“that gives you piece of mind”
