Brian Thornton is President of ProWriters. Prior to taking over at ProWriters Brian spent roughly two decades in the insurance industry in claims, underwriting, and leadership roles. Prior to taking the reins at ProWriters, he was the Southwest Regional Executive and Senior Vice President at Hiscox Inc.. He started their Los Angeles office to serve the southwest region for all products. Before that, Brian was the Mid-West Regional Executive and opened the Chicago office for Hiscox to serve Midwest brokers for all products. He also served as the Hiscox Technology E&O and Cyber Product Head for the United States. Prior to Hiscox, Brian was an underwriter at Chubb and an underwriter and claims adjuster at National Union (AIG.) While there, he focused on complex Professional, Management, and Cyber Liability risks.

ProWriters was originally formed in 2008 to serve the E&O interests of financial service firms. Since its inception, ProWriters has worked exclusively through insurance agents and brokers while doing anything we can to help our agents serve their clients. ProWriters was purchased from Venture Insurance Programs in 2012 and spun out into a stand-alone company, focusing on Professional Liability, Management Liability, and Cyber insurance products.

ProWriters has underwriting authority for several highly-rated insurers which is simply based on our expertise in these products and our relationships with key specialist insurance carriers.
