ISO/IEC 27001 | HIPAA | PCI | NIST

Cybersecurity Foundation Package

URS Cybersecurity "Foundation Package" solution is built based on our clients' initial needs and budget. After URS or our partner receives the client's answers to the non-technical (20 question) "URS Custom Cybersecurity Questionnaire" we will review the initial findings and configure the appropriate initial cyber foundation package. The MSRP cost of the Cyber Foundation system including the powerful Cyber Compliance Management Risk Tracker and Cyber Risk Hub starts at 10 users a cost of $90 a month and each additional user above 10 is an additional $2.00 a month. There is a 1-time set-up cost of either $500 or $1,100.

We begin with the URS Cyber Risk Hub, the URS help desk, five security training courses and 19 security policies & procedures and the URS Cyber Risk Tracker. From this cybersecurity foundation we can add at any time a single or a group of products, software and or services, to ultimately protect against most common cyber-attacks.

Additional components available to improve your initial or enhanced URS cybersecurity system:

▪ The Cyber Real-Time NetShield Blocker Appliance

▪ A Cyber insurance policy from your agent for $1M coverage or more and the Cyber Insurance Evaluator

▪ Additional Cybersecurity Training courses- including security awareness, PCI & HIPAA

▪ Additional URS Cyber Help Desk

▪ MSSP cyber services-Penetration tests, vulnerability test, etc.

▪ MSP IT services- managed services, network, encryption, etc.

▪ Data Breach Planning & Response-custom Incident Response Plan

---

Ultimate Risk Services will design a custom Cyber Defense Package for a small to a large-size client

————

A strong Cybersecurity Program is much more than just a firewall and antivirus!

Cyber Foundation System:

- URS Cyber Risk Hub
- URS Compliance Mgt. Risk Tracker
- URS Cyber Help Desk
- Security Training Courses
- Security Policies & Procedures

————

URS Cyber Risk Hub

- Mobil friendly platform
- News Center- cyber risk stories, etc.
- Free consultation with breach coach
- Learning Center- best practice articles, webinar from leading practitioners
- Risk Manger Tools- self-assessments, cost calculators, state breach laws
- Security Awareness- training courses and light level Symantec video
- Experts/ Vendors directory-extensive

————

URS Compliance Mgt. Risk Tracker

- Keeps you on track & timely
- Never miss a deadline again
- Mandatory cyber tasks
- If the dashboard is red find out who missed a task or training required
- Your 24/7 Affordable Administrator
