

MSP & MSSP Cyber Program

Ultimate Risk Services is actively recruiting managed service providers and managed security service providers.

URS will provide hot leads to MSP/MSSP's for all the value-added cyber services our clients will need PLUS the MSP/MSSP's will be listed in our cyber hub, a great way to get new customers.

- Ultimate Risk Services (URS) is a wholly-owned subsidiary of American Compliance Systems (ACS), providing risk mitigation for over 25 years.
- URS depends heavily with our MSP/MSSP's partners since URS is not an IT company and never wants to be one. Our MSP & MSSP partners will be introduced to our cyber clients as their new cyber technology company, to fulfill various required cyber services**.
- URS offers an annual Outsource Managed Security Solution to its clients that do not have an IT group in-house. This total service is preformed by one of our MSP/MSSP partners.
- Our MSP/MSSP's will have direct access to our URS Insurance Wholesaler for cyber insurance policies and for their clients. The clients will have a choice of six pristine insurance carriers like Hiscox Insurance Company, Chubb Insurance Company and others.

As a team we can protect both our clients against cyber-attacks & non-compliant fines and penalties.

- **The URS Solution is Simple, Cost Effective & Scalable**
- **The Cyber Security Foundation package** with custom company specific plans, training, support, resources and help desk etc.
- **Automated tracking system** to track, monitor and report on required compliance tasks. Email alerts automatically generated so you do not miss deadlines in the URS Foundation Package.
- The **URS Incident & Breach Evaluation Hotline & email** is a special service only available to URS & partner clients, provided by URS partner Mullen Coughlin, largest team of cyber attorneys focused on providing tailored data privacy and incident response services.

For MSP & MSSP's

A new major source of income helping our clients become Cyber protected

Why Clients avoid the cyber journey.

- Cost thousands of dollars for a consultant to develop plans & conduct training
- Businesses lack the resources to implement, monitor, track & maintain required compliance from a consultant
- A great deal of time and money is spent and still not compliant

- Cost Effective Cyber Protection
 - Cyber insurance
 - URS Cyber Security programs
 - MSP & MSSP cyber required services

AS an MSP or MSSP you will be helping our insurance clients and ours clients avoid non-compliance fines with these regulations:

- PCI (credit card merchants)
- HIPAA (healthcare providers)
- Government (DFARS, FARS & NIST)
- State (California, NY, etc.)
- Insurance Policy
- Vendor contracts

** Monetizing the MSP/MSSP opportunity, five-six digit income is possible with all the IT services required with a cyber client!

Ultimate **Risk** Services
