

Cybersecurity Foundation Program

Simple | Affordable | Scalable

URS Cybersecurity Foundation Package provides a SMB a perfect level to begin the Cyber Journey.

We bring the client the URS Cyber Foundation Package.

The URS package contains:

- Cyber Risk Portal
- Five compliance security training courses
- Help Desk
- Automated Tracking & Reminder Service
- 19 security compliance policies & procedures
- Compliance Management Risk Tracker
- Help Desk & support
- Cost-effective Pricing and scalable.

We conduct a short survey prior to starting the Foundation package, this assessment should take only 30 minutes.

Additional components available to improve your Foundation URS cybersecurity system:

- The post Foundation URS Managed Security Service (Basic)
- 24X7 advanced threat monitoring and detection, network intrusion protection, log analysis, and regulatory compliance solution
- A Cyber insurance policy from your agent for \$1M + coverage
- Additional cybersecurity training courses- including security awareness, PCI, HIPAA & GDPR
- MSSP & MSP cyber services-Pen tests, vulnerability scan, etc.
